

# Contemporary Worship Band Singer MINISTRY

**A. Ministry Purpose:**

To be a part of the contemporary worship team and sing with the band for the 10:45 contemporary service on Sundays.

**B. Responsible To:**

Meet for practice at 9:00 am on Sundays, sing for the service, and be able to learn the music for the contemporary service.

**C. Job Description:**

As a singer for the Loft service, we offer a way to use your voice to sing with our praise band for the contemporary service. We add music that connects with the service and helps to lead our congregation in song. We look for people who excited to be a part of a team as well as raising their voice to worship with their fellow members. I would ask that you have some kind of music experience such as choir, but it is very much not necessary, it just helps a little. We are happy to welcome anyone willing to join us.

**D. Time Commitment:**

From 9am- about 12pm on Sundays (time varies depending on when service ends, but it is not past 12 typically). Also any time you may wish to practice on your own

**E. Length Of Commitment:**

However long you wish to be a part of our team, I am very flexible. If you cannot make it for a Sunday, or possibly more, I only ask that you shoot me a text, email, or phone call to let me know.

**F. Training Provided:**

We do not necessarily have training. I am, however, happy to help with any necessary tips or help if/when needed.

**G. Skills / Qualifications:**

- Has been a member of a Choir at some point (if possible)
- Must be at least 12 years of age

**H. Benefits to you as a volunteer:**

You get to be a part of a wonderful team that is very much like family and you will use your vocal talents to lead the congregation in worship.

**I. How can I get involved?**
